ABOUT ME

I'm a vocational high school graduate with expertise in full-stack website development. I'm familiar with using HTML, CSS, PHP, MySQL, and the Laravel framework to build simple to intermediate website applications. I'll continue to develop myself in the technology world through website development.

EXPERIENCES

October – November 2023

ITCC 2023 – Universitas Udayana

Finalist – Programming Competition (Individual)

- I participated in the preliminary round in October 2023 to select ten people who would qualify for the final stage online, and I was declared to have qualified for the final stage which was held offline at Udayana University.
- When I was in the final stage in November 2023, I did not win the championship but I was proud to be a finalist in the programming competition..

July – November 2024

PT. Inti Bisnis Inovasi Global

Coding Division (Internship)

- I was once a temporary teacher to teach elementary school children and courses about simple coding understanding.
- I collaborated with the Coding Division to create a website project, namely an Attendance System using the Laravel framework.

SKILLS

Web Programming

PHP

Database MySQL

Data Processing
